Taylor Resolute™ Adhesive SKU: ADH800 2 GL	Hard Set Adhesive	2 gal.	Porus and Non-Porus 500 sq. ft.	27 lb.

PRODUCT DESCRIPTIONS

Parterre Universal Adhesive

Versatile for nearly any flooring installation, Parterre Universal is a pressure sensitive adhesive that is strong with moisture, guaranteeing up to 99% RH when used in new construction and up to 95% RH for use in pre-existing buildings. Parterre Universal is FloorScore® certified and Color Ready™ for an easy installation process.

Parterre Lateral™ Adhesive

Lateral™ is the go-to adhesive for interior wall applications of Parterre Luxury Vinyl in commercial environments. Roller-Applied and FloorScore® certified, Lateral is fast-drying for a quick and easy installation process. Lateral™ may also be used for flooring installations in light commercial and residential environments.

Parterre 539P Adhesive

Parterre 539P is a premium, non-staining, acrylic adhesive used to permanently install resilient flooring on porous and non-porous subfloors. Parterre 539P is for all grade levels of concrete, on-, above-, and below-grade, in the absence of moisture, and for suspended double sheeted, structurally sound wood floors (APA). This adhesive is nonflammable, water and alkali resistant and freeze-thaw stable as determined by ASTM Test Method D7149. Parterre 539P has excellent resistance to plasticizer migration, is FloorScore® certified and sets to a tough, hard, permanent bond.

Taylor Resolute™ Adhesive

Resolute™ is formulated for the installation of all types of resilient flooring in high moisture environments and conditions guaranteeing up to 100% RH. This solvent free, easy troweling, high strength product provides excellent installations for approved recycled resilient flooring, tile, plank, and sheet goods over both porous and non-porous surfaces.
